**Dated: 18<sup>th</sup> November, 2024**

## **NOTICE**

The Nagaland Super League (NSL) Governing is issuing this press release in order to clarify inaccurate and misinformation that has appeared in the media. The information currently being shared, including the list of franchises, operational guidelines and player recruitment details is unauthorized and misleading. The NSL Governing Body has not released any official statement or details related to the franchises, eligibility requirements or operational framework. Only a document for applying clubs and franchises has been issued to those organisations that have registered with an interest to participate in the league and this is an internal document for the registered franchises only.

Such dissemination of false information undermines the efforts of the NSL to ensure a transparent and professional process for the league's development.

We urge media outlets, social media users and the general public to refrain from sharing unverified information that is false and speculative. All official announcements will be made exclusively by the NSL Governing Body through authorized channels, including press releases, official meetings or notifications issued by the NSL headquarters.

The Governing Body remains committed to ensuring the successful launch of the Nagaland Super League in a professional and transparent manner. We request the cooperation of all stakeholders in maintaining the integrity of this initiative and avoid the spread of misinformation.
